TALIWAS RIVER-WILL BE SABAH'S FAMOUS ECO-TOURISM DESTINATION

KOTA KINABALU (Saturday) – The scientific exploration in the Taliwas River Conservation Area (TRCA) organised by the Yayasan Sabah Group in collaboration with various government departments, non-governmental organisations, and local educational institutions has been ongoing for a week from 7 to 17 June 2022 have found results in such explorations.

The data collection results from this exploration were presented during the visit of the Assistant Minister to the Chief Minister of Sabah, Datuk Abidin Madingkir, on 11 June 2022 at the TRCA exploration site. Among those in attendance were the Director of Yayasan Sabah cum the Executive Chairman of Innoprise Corporation Sdn. Bhd., Dato' Sri Haji Gulamhaidar@Yusof bin Khan Bahadar, Deputy Director of Yayasan Sabah, Datuk Sam Mannan, Lahad Datu District Police Chief, ACP Tuan Rohan Shah bin Ahmad and Head of Division of Yayasan Sabah Group.

Next, Datuk Abidin captured his visit with a tree planting event and visited an exhibition of the researchers' findings, who showcased their research work during the first week of exploration. Sabah Nature Club also held an environmental education programme involving 20 students and two teachers from SK Silam, Lahad Datu. Among the activities carried out were the introduction of TRCA, bird watching and river ecology.

Datuk Abidin also had the opportunity to meet with the students who carried out the environmental education activities in addition to experiencing the situation during the scientific exploration.

The completed data results collection from this exploration will also be presented at a seminar to be informed later. In addition, the results will be published as articles, proceedings, reference books such as coffee table books and the productions of experimental documentaries. Next, the results of the exploration data will also be the reference material for formulating the Strategic Management Plan for the TRCA. The information obtained from

this exploration will be used effectively to make TRCA one of Malaysia's well-known ecotourism and recreation areas.
